

# Hydrocyn®

---

## aqua

## Advanced disinfectant

---

Hydrocyn® aqua is a non-alcoholic disinfectant solution for, for example, skin and surfaces. The active substance hypochlorous acid (HOCl) is a part of the human immune system.

A pH-neutral and water-based solution that, unlike alcohol and chlorhexidine, is not irritating to the body, nor flammable.

## Effective against SARS-CoV-2

---

Hydrocyn® aqua is proven effective against the new Coronavirus SARS-CoV-2 that causes COVID-19, and against previous strains of coronavirus.

Tests on various microbes show that Hydrocyn® aqua effectively eliminates bacteria, fungi and virus.
